

McD® Cares Hand Hygiene Program

Alcohol-Free Hand Sanitizing Wipes and Floor Stand Dispenser

Hand hygiene plays a critical role in proactive public health protection. When customers and Crew follow proper hand hygiene, cross-contamination and potential illness can be reduced. It is recommended to encourage customers to wash their hands before eating and using the playground. Having convenient, clean hand wash facilities, hand washing signage and hand sanitizer or hand sanitizing wipes available to customers is helpful in achieving this goal. If children are washing their hands and/or using wipes more frequently, it is less likely that surfaces will be contaminated by their hands.

Ecolab offers the following hand sanitizing wipes and floor stands for lobby and PlayPlace use to ensure you are providing the safest and most effective products to your customers.

4 - 800 count Bulk Hand Sanitizing Wipes and
Floor Stand Dispenser

Help protect your customer's health with easy access hand sanitizing products.

FAQs:

Answers to some common questions.

Q: WHAT ADDITIONAL SUPPORT CAN YOU PROVIDE?:

A: Our Ecolab QSR Territory Representatives are available to provide Excellence in Cleaning classes—focusing on Operation: Clean Sweep—Shining the Arches. With a focus on PlayPlace cleaning and proper hand hygiene, your managers and Crew will be able to see the restaurant through the eyes of your customers.

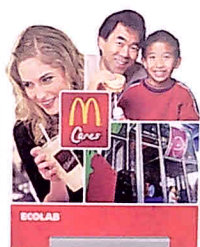

Q: HOW DO I REORDER PRODUCT?:

A: Both the Hand Sanitizing Wipes and Floor Stand Dispenser can be ordered through your distribution center:

- Hand Sanitizing Wipes 4 x 800 Count: 00224-004
- Floor Stand Dispenser: 07603-321

Q: IS THIS PRODUCT A SURFACE DISINFECTING WIPE?:

A: No. The hand sanitizing wipes in your restaurant support proper hand hygiene and are for use on hands only.
