

Front Counter POS

Capture open tills, the exchange of cash and product between the customer and cashier (transaction areas).

Drive-Thru POS

Capture open tills, exchange of cash/products, the customer.

Front Door*

Identify guests entering and exiting the store. Consider security purposes. Note that Exit ID cameras are preferred.

Bar POS

May require multiple cameras to capture the exchange of cash and drinks. Bar areas need coverage of the drink prep, tip jars, full bar, and server stations.

Safe

Who is in your safe?
View what is placed into and removed from the safe.

Freezer (Outside/Inside)

Grazing, product theft, #1 area for injury claims.
Be aware of blind spots and foot traffic throughout the back area.

Back Door

What and who is going in/out?
A clear shot of the back door.

Office

Cash counts, employee productivity, manager meetings.
Note that side angles are ideal; do not position cameras to face the backside of employees handling cash.

Dining Room/Lobby

Are your guests being served?
Slip and falls, guest services, theft.

Drive-Thru Lane*

Capture activity outside the location.
Consider dumpsters, menu boards and stacks.

Kitchen/Food Prep

Food & employee safety, presentation, accuracy.

Drive-Thru Overview*

View employee/customer interaction.

Backrooms/Prep Areas

Inventory, food safety, employee productivity, injury,
slip and falls, personal property, theft.

Parking Lot & Vehicle License Plate*

Consider parking lot entrances and exits, license plate numbers.
