

Comprehensive

Camera Coverage Solutions

Enjoy Best-In-Class Cloud-Based Video Storage

Watch, save and share court-admissible videos in high definition from your mobile device

- Upgrade from Analog to Digital High Definition Cameras for incredible picture quality that captures the smallest details
- Instantly back up video with cloud-based data & video storage and choose between different data storage duration levels
- Upgrade to 32 cameras for complete coverage of your location's interior and exterior, including the parking lot.

Surveillance Protection

Audio & Video

Use surveillance to determine exactly what transpired in any situation

- Take action to address concerns about workplace harassment
- Use case management tools to keep accurate records of any incident or claim

Recommended Camera Placement

Front Door

Identify guests entering and exiting the store as well as the restroom. Note that Exit ID cameras are preferred.

Drink Station

Maximize coverage of beverage stations to protect against slip and falls.

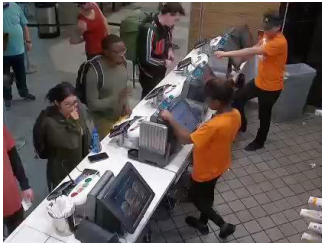

Entrance & Exits of Parking Lot

Consider parking lot entrances and exits, license plate numbers.

All Areas of Parking Lot & Outside of Building

Full coverage of building exterior including parking lots and other surrounding areas.

Front Counter POS

Capture open tills, the exchange of cash and product between the customer and cashier (transaction areas).

Back Door

What and who is going in/out? Get a clear shot of the back door.

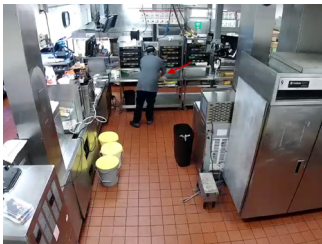

PlayPlace Areas

Monitor all sections of restaurant to ensure cleanliness or potential injury claims.

Freezer (Outside/Inside)

Grazing, product theft, #1 area for injury claims. Be aware of blind spots and foot traffic throughout the back area.

Backrooms/Prep Areas

Inventory, food safety, employee productivity, injury, slip and falls, personal property, theft.

Kitchen/Food Prep

Food & employee safety, presentation, accuracy.

Office

Cash counts, employee productivity, manager meetings. Note that side angles are ideal; do not position cameras to face the backside of employees handling cash.

Safe

Who is in your safe? View what is placed into and removed from the safe.

Drive-Thru POS

Capture open tills, exchange of cash/products, the customer.

Drive-Thru Lane

Capture activity outside the location. Consider dumpsters, menu boards and stacks.

Outdoor Patio Areas

Monitor outdoor patios to ensure customer safety.

Backlot

Capture video of everyone entering or exiting the premises. Video of dumpster area guards against slip and fall claims.
