PROFITING FROM SAFETY

INSURANCE & SAFETY SOLUTIONS FOR MCDONALD'S

BACK STRAINS CAN EASILY BE PREVENTED:

- **1** GET CLOSE TO THE OBJECT.
- BEND AT YOUR HIPS AND KNEES.
- 3 LIFT SMOOTHLY AND SLOWLY, KEEPING THE OBJECT CLOSE TO YOUR BODY.
- 4 KEEP THE LOAD BETWEEN YOUR KNEES AND SHOULDERS.
- 5 PIVOT WITH YOUR FEET INSTEAD OF TWISTING YOUR BACK.

Slip Resistant Shoes – Enforcement Is Key

Proper approved slip resistant shoes are a must in any store, and as a manager you must enforce usage - no exceptions. Regardless of how good the floor cleaning techniques are, shoes are the best way to reduce slips. One may never know when there will be a spill, or grease on the floor that may cause a slip and fall. Slip resistant shoes are much different than standard shoes, even athletic shoes. The soles are designed in a way to push liquids away and better grip the floor. As a result, a proper approved shoe program is crucial in helping to prevent slips and falls. When purchasing a slip resistant shoe, make sure it is approved! Shoes for Crews and Payless are the most common within McDonald's. These shoes have been researched for effectiveness and cost and should be required within your store.

Personal Protective Equipment

Personal protective equipment (PPE) plays a key role in safety. PPE can aid in preventing injuries to hands, arms, body, and even the face and eyes. Depending on the job, PPE can be utilized to prevent slip/fall, eye, burns, and laceration injuries.

Below are some points to remember when it comes to PPE:

- · Use the right PPE for each job
 - Slip resistant shoes for wet floors.
 - Face-shield, apron, and gloves when cleaning fryers and grills.
 - · Safety box cutters for opening boxes.
- Inspect and report any missing, old, or damaged PPE to management.
- Be an example to others use the proper PPE every time.
- · Store PPE in designated area.

Manager Safety University

All McDonald's owners want to protect their customers, employees, and profits. We all know that this can be accomplished by hiring the best people, implementing best practices, and making safety training a priority. To help Operators with this, we have created a FREE online safety training portal called Manager Safety University (MSU).

MSU is a four part interactive training website which will educate your managers and supervisors on the following:

- Worker Safety Part 1 (Prevention)
- Worker Safety Part 2 (Manage Claims)
- Safer Driving
- Customer Safety
