

# QSRs & RESTAURANTS

## Optimize Every Shift with Video and AI Insights

Over 30,000 customers trust DTiQ to help them improve speed of service, prevent loss, and enhance operational efficiency. From in-store transactions to drive-thru bottlenecks, QSR operators rely on DTiQ's intelligent video monitoring, advanced data analytics, and expert-led auditing solutions to improve performance at every level.

## Turn Cameras into Smart Business Tools with *One Platform*

### Protect Your Assets From Fraud and Theft

Link video to POS data to spot fraud and cash discrepancies.

Get real-time alerts for unusual transactions like voids and refunds.

Monitor cash handling remotely to reduce theft risks.

### Improve Speed of Service and Your Bottom Line

AI-driven workforce insights and real-time alerts ensure operators align staffing levels with peak demand to avoid slowdowns.

Heatmaps and dwell time analytics help optimize restaurant layout for better efficiency.

### Win Disputes from Third-Party Delivery Services

Link video with transactions to verify service and order accuracy.

SmartDispute handles chargebacks and third-party claims for you.

Store audits ensure consistent service and operational compliance.

## Behind the Platform is the Power of Our People

Our team comes straight from the restaurant and QSR world, so we get it—the rushes, the staffing headaches, the service gaps. We've lived the same challenges our customers face every day, which means we're not just offering solutions, we're solving problems we've experienced firsthand.
