

# PUT YOUR VIDEO TO WORK

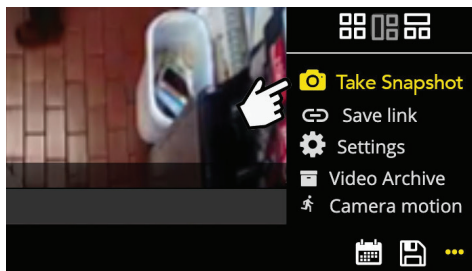

## Capture It

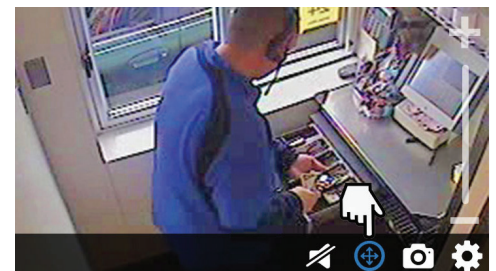

### SNIP AND SAVE

Grab a portion of your video to share with team members or investigators.

### SNAPSHOT

Capture a moment of video to quickly share and discuss, like wet floors, unclean tables, long lines and more.

### MANIPULATION

Turn on manipulation to zoom in/out on a standard camera or scroll around and angle in from a fisheye top-down camera.

*QsrSoft*

Can easily integrate with QsrSoft® so you can see, hear and virtually BE in your restaurant right inside the QsrSoft® application.

# Store & Share It

## RISA/RISA+ (REMOTE INCIDENT SUPPORT ARCHIVING)

- ✔ Ensures you have a back-up of incident footage forever -- even if the NVR fails, is damaged or goes missing.
- ✔ On-demand service for your important surveillance footage.
- ✔ Share links instantly, track views and set expiration dates for any shared data.

## OSS (OFF-SITE STORAGE)

- ✔ Automatically store the specified # of days of your live video.
- ✔ You will always have immediate access to your stored video.

# Do More With Options

## AUDIO

Optional audio lets a user audit video for compliance with scripts, selling behaviors and more.

Recommended for cameras placed at POS and Drive-Thru locations.

## VIDEO ANALYTICS

Video is analyzed and important metrics like customer count, speed of service and conversion are tracked and reported.

No additional hardware is needed.

## SMARTAUDIT™ SERVICES

Our team of Video Audit Analysts can monitor your data for high risk alerts and audit video footage for additional insights.

Audit criteria can be custom-built, or choose from our recommended audit reports for QSRs.

ENROLL IN SMARTAUDITS™ BEFORE 4/15/20 AND RECEIVE YOUR FIRST AUDIT FREE.
